Romania

02.05.2023

Dear Sir or Madam,

Zambelli is a leading manufacturer with production locations in Germany and Hungary. The production operates according to ISO 9001, in regard to the environmental aspect according to ISO 14001.

The Zambelli rainwater systems are produced according to EN 612 (successor of DIN 18461) following all quality standards. The raw material suppliers are European based and are following quality standards throughout the entire supply chain. Origins are as follows:

- Robust (painted steel): VOEST
- Zinc: VMBSO, Nedzink and Elzinc
- Copper: KME
- Galv. steel: US Steel

Company Euroart, based in Bucharest, is our exclusive distributor for the Romanian market since 2018.

Best Regards

Peter Brenner  
Head of Export
